

February 16, 2016

Dear Koloa Ohana,

This week we honor the Presidents of our country. I had a great time at Saturday's Ohana Fun Day. I hope you all had a safe and fun three-day weekend.

Today, our teachers had professional development in our Stepping Stones Math Program. This will help them be able to use the various features of the program. The program wants to bring students deeper into mathematical concepts and be able to become problem solvers.

Please join us in the Humanities Room at 3:00 today for our monthly SCC meeting.

Grades 3-5 Student Council is planning our belated Valentine's Day themed dance for Thursday of this week. Grades K-2 teachers are organizing their own fun activity for Friday.

Fresh Fruit for the week is cantaloupe and honey dew melon.

Please return your conference forms if you have not done so already. Please remember conferences are Tuesday, March 8th, Wednesday March 9th and Thursday March 10th. Dismissal time T, Th and F are 1pm and W 1230pm.

Once again, thank you for supporting your child to be prepared and ready for learning every day!

With Warmest Aloha,
Linda
